Dear Sir:-

Your letter of December 5 is received and we are sending you under separate cover our price-list of meteorites. Those not checked in this price-list are still in stock. We have no native metallic iron of meteoric origin. However, you will find listed a number of iron meteorites which might interest you. We are today in receipt of a letter from S.H.Perry of The Adrian Daily Telegram, Adrian, Michigan in which they ask for the same material as you ask quotations on and we are quoting these people direct as requested. We are giving you this information as we believe that you would like to know that we are also quoting.

Very truly yours,

RCV:F
